Roundtable Debate

on

Legal Base of the Common Agricultural Policy of the EU and its Implementation on EU and national levelMay 7th, 2021

The Common agricultural policy is an essential part of EU membership. As the EU countries, their economies, and global relations develop, so the EU policies must adapt also. The CAP is adapting and changing through regulations that are binding to all member states and therefore must be implemented in the national legislation with all the modifications they present.

The roundtable debate aims to provide the participants with information on the functioning of the CAP, its regulations, and assess the impact on the agricultural sector on the national level. The expert participants will provide an insight into CAP during the 2014-2020 period in the areas of legislation, implementation, and impact on agriculture in Slovakia. Furthermore, there will be a discussion about the concept of the new CAP framework after 2021.
